

Listing elements and finding numbers of members of sets.

Example I

i) Find

a)  $P^1$  (means without members of set P)

$$P^1 = \{e, f, g\}$$

b)  $P - M$  (means P only)

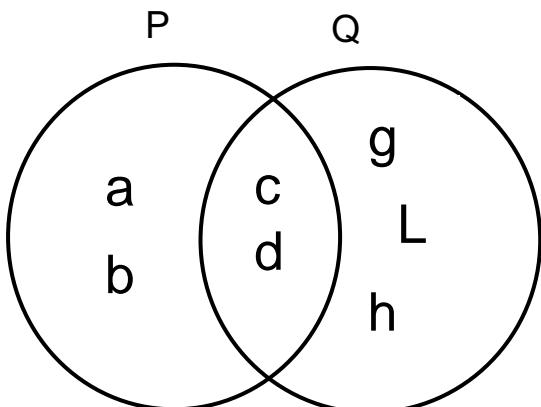

$$P - M = \{a, b\}$$

c)  $\text{N} (P \cap M)^1 = \{a, b, e, f, g\}$

$$= 5$$

### Activity

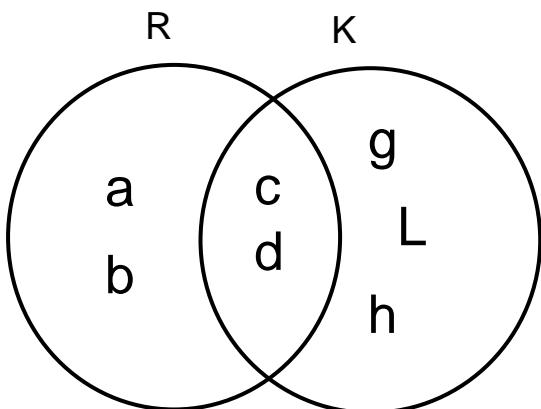

1.

a) List the members in;

- i) Set A
- ii) Set B
- iii)  $A \cap B$
- iv)  $A'$
- v)  $B'$

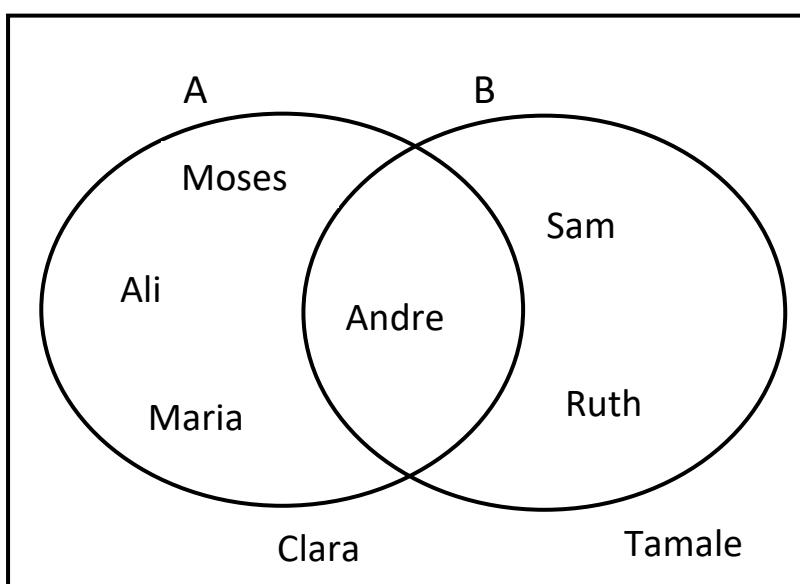

2.

Find

- a)  $\cap(R)$
- b)  $\cap(K)$
- c)  $\cap(R \cap K)$
- d)  $\cap(K')$
- e)  $\cap(R')$
- f)  $\cap(K \cup R)$

3.

Find

- i)  $A - B$
- ii)  $B - A$
- iii)  $\cap(A \cap B)'$
- iv)  $\cap(A \cup B)'$
