SKILLS LIFE AND NATURE STUDY**

Paper 2

2 hours 30 minutes

Alternative subjects

EITHER

- A.** On the floor before the candidates, place a folded mature banana leaf so that its upper part vertically rests against the wall while the lower part with its short stalk horizontally rests on the floor. On the banana leaf slightly to the right put an earthen ware pot of approximately 40cm in diameter to rest on its side with the opening facing to the left at an angle. In front of the setting in between the pot and the vertical part of the banana leaf, place three large sweet potatoes resting on each other in a heap. In one of the potatoes, vertically pierce a sharp knife with its blade clearly seen by the candidates.
- B.** On a low table, place a brand new sauce pan of approximately 30cm in diameter half filled with water. In the sauce pan place a large mature Tilapia fish clearly showing only the middle part and the head resting on right side. In front of the sauce pan but slightly in the middle rest a sharp knife with its handle touching the edge of the sauce pan. In front of the whole setting but slightly to the left place one large green pepper, one large ripe tomato, a large onion and a carrot.

EITHER

- C.** Make a study or studies of an uprooted Sugar cane plant with a stem of approximately 40cm. Candidates to pay special attention to the roots.

OR

- D.** Candidates are to make a study of a landscape with a building seen at an angle with some vegetation around.
- E.** Using a magnifying lens x100 make a study or studies of a large mature housefly.
