STILL-LIFE DRAWING

PAPER 2

DURATION: 2HOURS 30MINUTES

INSTRUCTIONS

- o Attempt **one** question*

ALTERANTINE A

On a low platform near the wall, place a coiled stool in an upright position. On your right hand side, place a medium size wooden motor near the stool still in an upright position.

On your left hand side make a pestle to lean against the stool facing towards the candidates.

In between the pestle and the motor slightly in front, place at least three big cassava tubers inform of a heap and can easily be viewed well.

Candidates draw the whole setting

ALTERNATIVE B

- 1. Make a study or studies of a longitudinal cut piece (slice) of a pumpkin with some seeds still intact and clearly observed by the candidates.*
- 2. Make a study or studies of a creeping plant with at least three leaves on a plant stem.*

****END****
