2. Read the poem about insects and answer the questions in full sentences where necessary.

Insects, insects, insects

Insects of two types,

The useful insects and the harmful ones,

Some are both useful and harmful,

Examples of useful insects include bees, locusts and grasshoppers, the harmful ones include wasps and bees because they sting us.

Insects, insects, insects

I love the useful insects like bees which give us honey,

And the delicious grasshoppers,

Almost every one runs around,

hunting for grasshoppers when it's their season.
